/ WORK EXPERIENCE

>> Website Development Intern
Sycorian Matrimonial Services Ltd. | JUNE 2020- JULY 2020
I worked here to develop the website which included frontend design only with a contact form which sends the information submitted to the company email using only frontend technologiws like js, html and css.

>> INTERNSHIP TRAINING IN PYTHON
NSICLTD | JUNE 2019 - JULY 2019
I have undergone into an internship at NSIC (NATIONAL SMALL INDUSTRIES CORPORATION) .The internship was focused on Python Develeopment.Duration of this internship was from 10/06/2019 to 19/07/2019. I was graded A2 during performance evaluation. This inernship helped me boosting myself into the development enviroment. NSIC is an Goverment of India organisation which runs Technical Services Centre , they have great enviroment setted up for Developers and other Technical enthusiast .

/ PROJECTS

>> Sasha -Voice Commando
https://github.com/sagarr70/SASHA-A-VOICE-COMMANDO
This is a simple voice assistant based on making user expiernce more friendly while using computer by making commands through the voice for performing tasks like opening browser , asking for date and time etc.. Find out more on Github

>> Website Portfolio
https://sagarr70.github.io/sagar_aggarwal/
Being Digital is important for that i turned my resume into website portfolio. This is self developed portfolio using front-end technologies like html,css , javascript and bootsrap.
